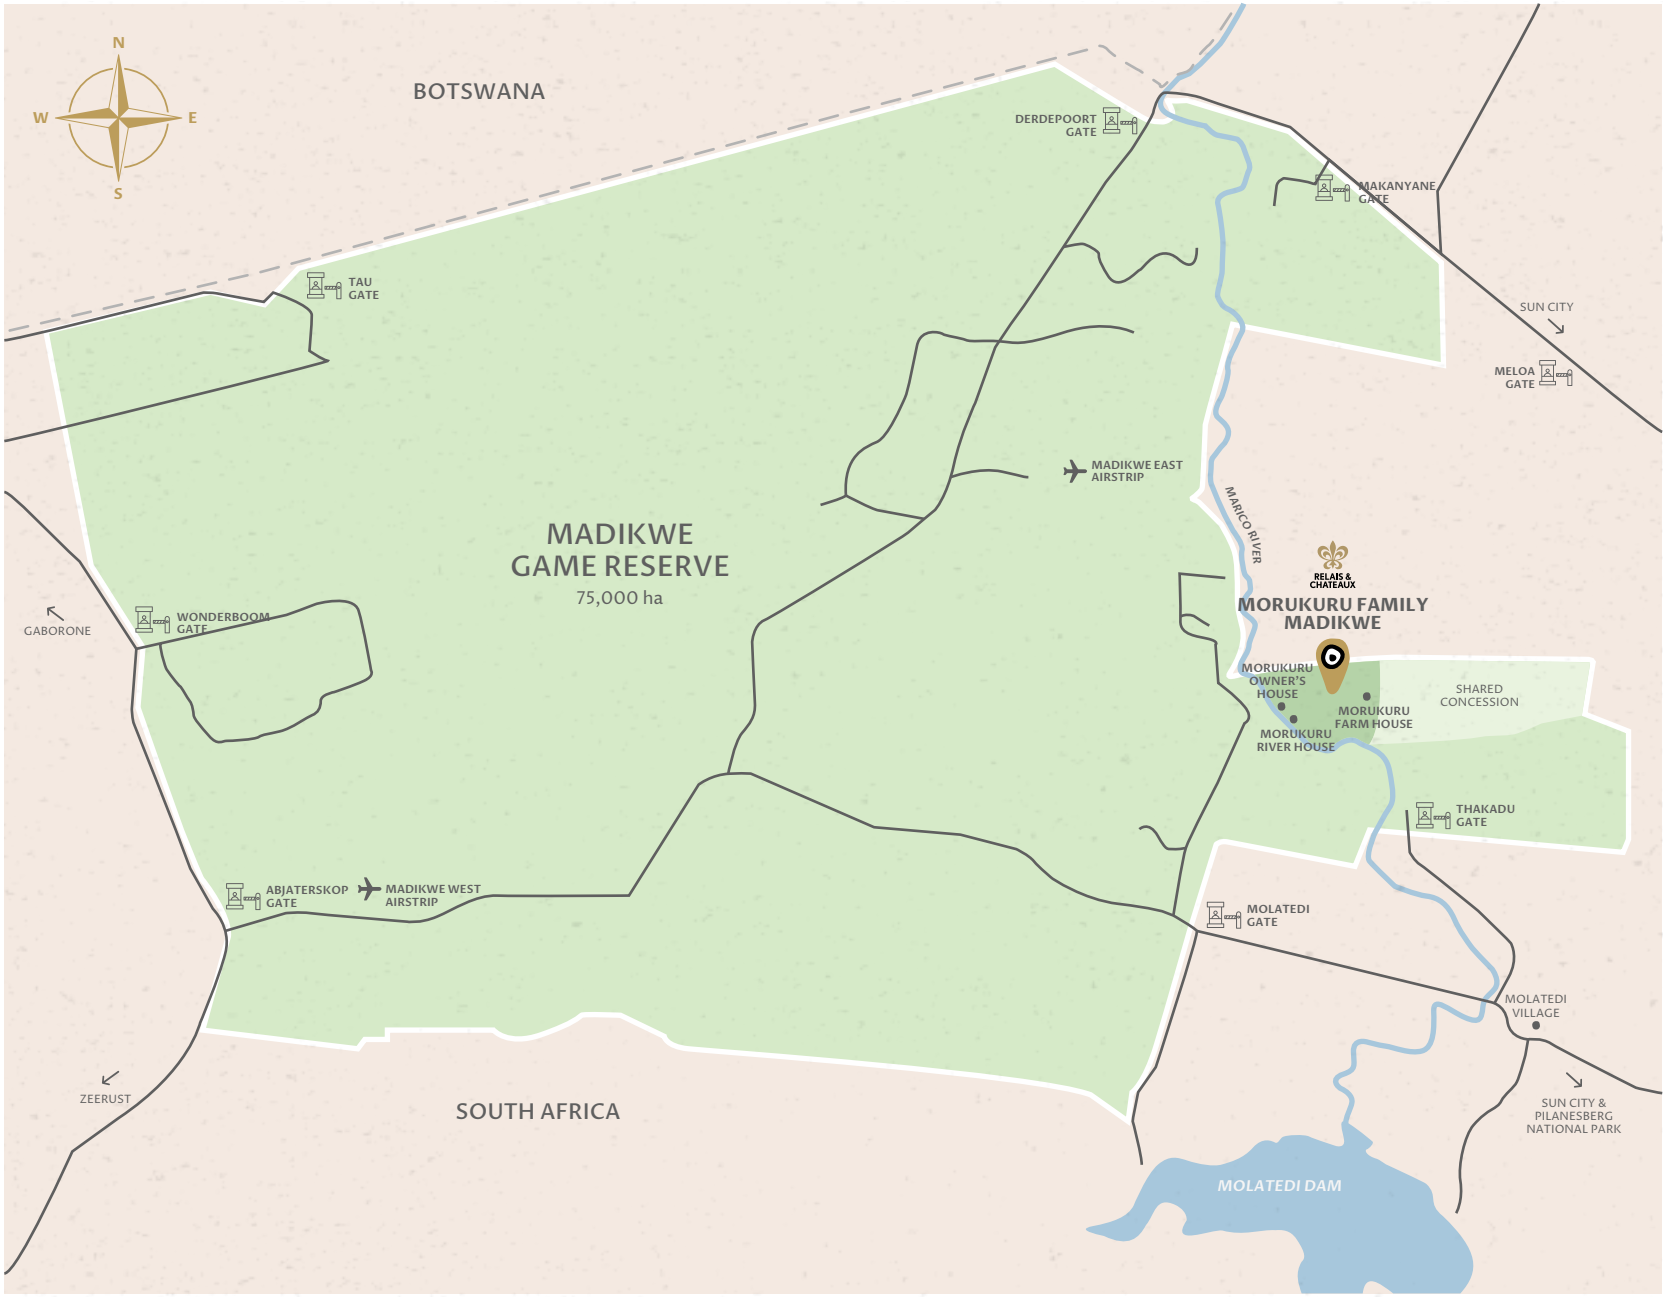
Madikwe Game Reserve Map



Madikwe Game Reserve (75,000 hectares) is currently the fifth largest game reserve in South Africa and is widely regarded as one of the best options for a malaria-free (family) safari.

The reserve is home to the Big 5, as well as Cheetah and African Wild Dog.

The land where Madikwe Game Reserve now stands was previously used as farming land.

The poor soil meant that farming was mostly unsuccessful and the South African government then decided that it would best be used as a game reserve, to help economically uplift the disadvantaged area.

Morukuru Family Madikwe is located in a private concession inside Madikwe Game Reserve.
